Methodology for the Successful Bidder Selection based on the Price Criterion (according to Option 2 of the calculation of the cost of the Services provided for in paragraph 4 of the Tender Documents)²

1. Evaluation of proposals of bidders is carried out according to the evaluation method with the following ratio – 5/80/15.
 - Advance (UAH) – 5 points.
 - Reimbursement of expenses (UAH / hour) (including for English and foreign lawyers, experts involved) – 80 points.
 - Success Fee (%) – 15 points.
2. The proposal is evaluated by the total number of points. The maximum possible number of points is 100.
3. The proposal, the advance of which is the smallest, is assigned the maximum possible number of points for "Advance" – 5.
The number of points for the remaining proposals is determined by the formula:

$$P1 = (\text{Price (minimal)} / \text{Price (calculated)}) * 5,$$
 where:
 P1 – the calculated number of points;
 Price (minimal) – the lowest advance price;
 Price (calculated) – the price of the advance, the number of points for which is calculated.
4. The bid of the bidder with the lowest value of reimbursement (UAH / hour) is assigned the maximum possible number of points for "Reimbursement" – 80. If the bidder indicates in the price offer a different cost of reimbursement for specialists depending on the level of qualification, for calculation the maximum cost of UAH / hour from the specified by the participant is defined.
The number of points for the rest of the proposals is determined by the formula:

$$P2 = (R (\text{minimal}) / R (\text{calculated})) * 80,$$
 where:
 P2 – the calculated number of points;
 R (minimal) – the lowest value of reimbursement (UAH / hour);
 R (calculated) – reimbursement of expenses (UAH / hour) of the participant, the number of points for the offer of which is calculated.

² To be applied if all the bidders have chosen Option 2 of calculation of cost of Services provided by item 4 of the Tender Documents.

5. The proposal of the participant with the lowest value of the reward (%) is assigned the maximum possible number of points according to the criterion "Success Fee" – 15. The number of points for the rest of the proposals is determined by the formula.

$$P3 = (SF (\text{minimal}) / SF (\text{calculated})) * 15,$$

where:

P3 – the calculated number of points;

SF (minimal) – the lowest value of the reward (%)

SF (calculated) –the Success Fee (%) of the participant, the number of points for the proposal of which is calculated.

6. The total number of points scored by the participant is: $P = P1 + P2 + P3$.

7. The bidder whose proposal will receive the highest score according to the above method is determined by the winner of the contest.

Regulations for the "price reduction" procedure³

Component prices of bids under the procedure of "price reduction":

- advance;
- reimbursement of expenses;
- success fee.

Minimum bid reduction step:

- UAH 50,000.00 – for an advance;
- 500 hryvnias – to reimburse expenses;
- 0.25% – for remuneration.

During the procedure, the participants present are invited to reduce the proposed bid price (advance, reimbursement and success fee) voluntarily by announcing another reduced price until each bidder announces that it has offered the final price. The first is to reduce the bid price to the bidder with the highest value of reimbursement.

In the absence of the bidder or his authorized representative in the procedure, the final price is the bid price specified in the bid of the bidder or that provided by the bidder in his e-mail and identified as final, before the procedure "price reduction".

The final price is entered in the "price reduction" protocol, which is signed by all participants present. A scanned copy of the "price reduction" protocol signed by each of the participants is sent to the e-mail address of the person authorized to communicate with the participants (on organizational issues) specified in clause 1.4 of the Tender Documents. The original of the signed protocol "price reduction" is sent by each participant by mail to the address of the DGF specified in item 1.7 of the Tender Documents.

Participants who have reduced the offer price relative to the initial price, provide to the e-mail address of the person authorized to communicate with the participants (on organizational issues) specified in paragraph 1.4 of the Tender Documents, a scanned copy of the adjusted price offer and proportionately reduced value of expenses reimbursement for each participant's employee / specialist involved, specified in the Hourly pay for specialists no later than 18:00 on the working day following the day when the price reduction procedure took place.
